TO DOWNLOAD YOUR TAKE-HOME EXAM:

Click “COURSES” Tab at the top of the screen. You will only see the take-home exam at the time it is available. The course will have “TAKEHOME” in the title. Click the course that your take-home exam is for. You will **NOT** be able to see it available or be able to download it before that time.

Click on the “ACTION” Button to Download Instructions/Assignment. Timed exams begin when assessment is downloaded.

You will notice that Exam Soft will assign an Upload Due Date and Time. This is based on the time allotted for the exam. You will also notice that Exam Soft will tell you how many hours remaining. This is a little misleading since Exam Soft does not have the capability of recording minutes. It will record the next hour. For example if you download an exam at 9:00am and you have 4 hours to complete it. Exam Soft will tell you that your exam upload time will be 1:00pm but time remaining will be 3 hours because it not able to record 3 hours and 59 minutes,
